PERFORMANCE COLLECTION

NOW FEATURING RECYCLED POLYESTER

45 Recycled bottles used per suit

The Performance Collection now features RECYCLED POLYESTER in the fabric blend

This simple fabric change reduces energy in production and diverts 45 BOTTLES PER SUIT from landfill, reducing soil contamination and air & water pollution.

This collection benefits from the addition of LYCRA to the fabric blend, which will increase the fabric stretch to 15% and enhance wearer comfort even more.

Recycled polyester and Lycra will be rolled out throughout the entire PERFORMANCE COLLECTION during 2021.
